### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. The application has been amended as follows: in the abstract, line 1, the language "The present invention provides for" has been replaced with "A". In addition, this application is in condition for allowance except for the presence of claims 1-11 and 22-26 to an invention non-elected without traverse. Accordingly, claims 1-11 and 22-26 have been cancelled.
3. The following is an examiner's statement of reasons for allowance: the prior art neither anticipates nor makes obvious a braking assembly having all elements as claimed, including first and second pistons slidably engaged in first and second bores as recited in detail, and further specifically having a bearing housing attached to one or both of first and second body portions such that the centerline of a bearing bore is parallel to the centerlines of each piston bore. The above recitation, combined with the rest of the structure in the independent claim, clearly defines over the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 3611
